VGN

Sensing The Pulse Of Chennai Since 1942.

The VGN Journey

When VGN was founded in 1942 as a brick manufacturing unit by Mr. Gurusamy Naidu, it was the start of an incredible legacy. He started a brick kiln factory, manufactured bricks in the name of VGN, and acquired large parcels of land to manufacture bricks at various locations in Chennai. He worked hard to build goodwill and earned a name as a reputed brick manufacturer in Chennai.

Mr. Pratish Vedhappudi, Managing Director of VGN Projects Estates entered the real estate business in 2004. His eye for detail, engineering prowess, and business acumen have resulted in the construction of large residential projects in and around Chennai. Since 2008, he has been developing large residential townships in various parts of Chennai. Under his leadership, many prime projects catering to the evolving needs of homebuyers have been developed. A few recent multi-storyed landmark residential projects include VGN Notting Hill in Nungambakkam, VGN Fairmont in Guindy, VGN Coasta on East Coast Road (ECR), and other notable projects in Ambattur.

Under his leadership, the VGN Group has completed over 250 residential projects and over 600 acres of plotted development, consisting of 20,000 residential plots, offering a highly lucrative investment opportunity to VGN's customers. VGN has also delivered around 10,500 premium & luxury homes under his dynamic leadership, and around 1,500 high-quality homes are in the pipeline.

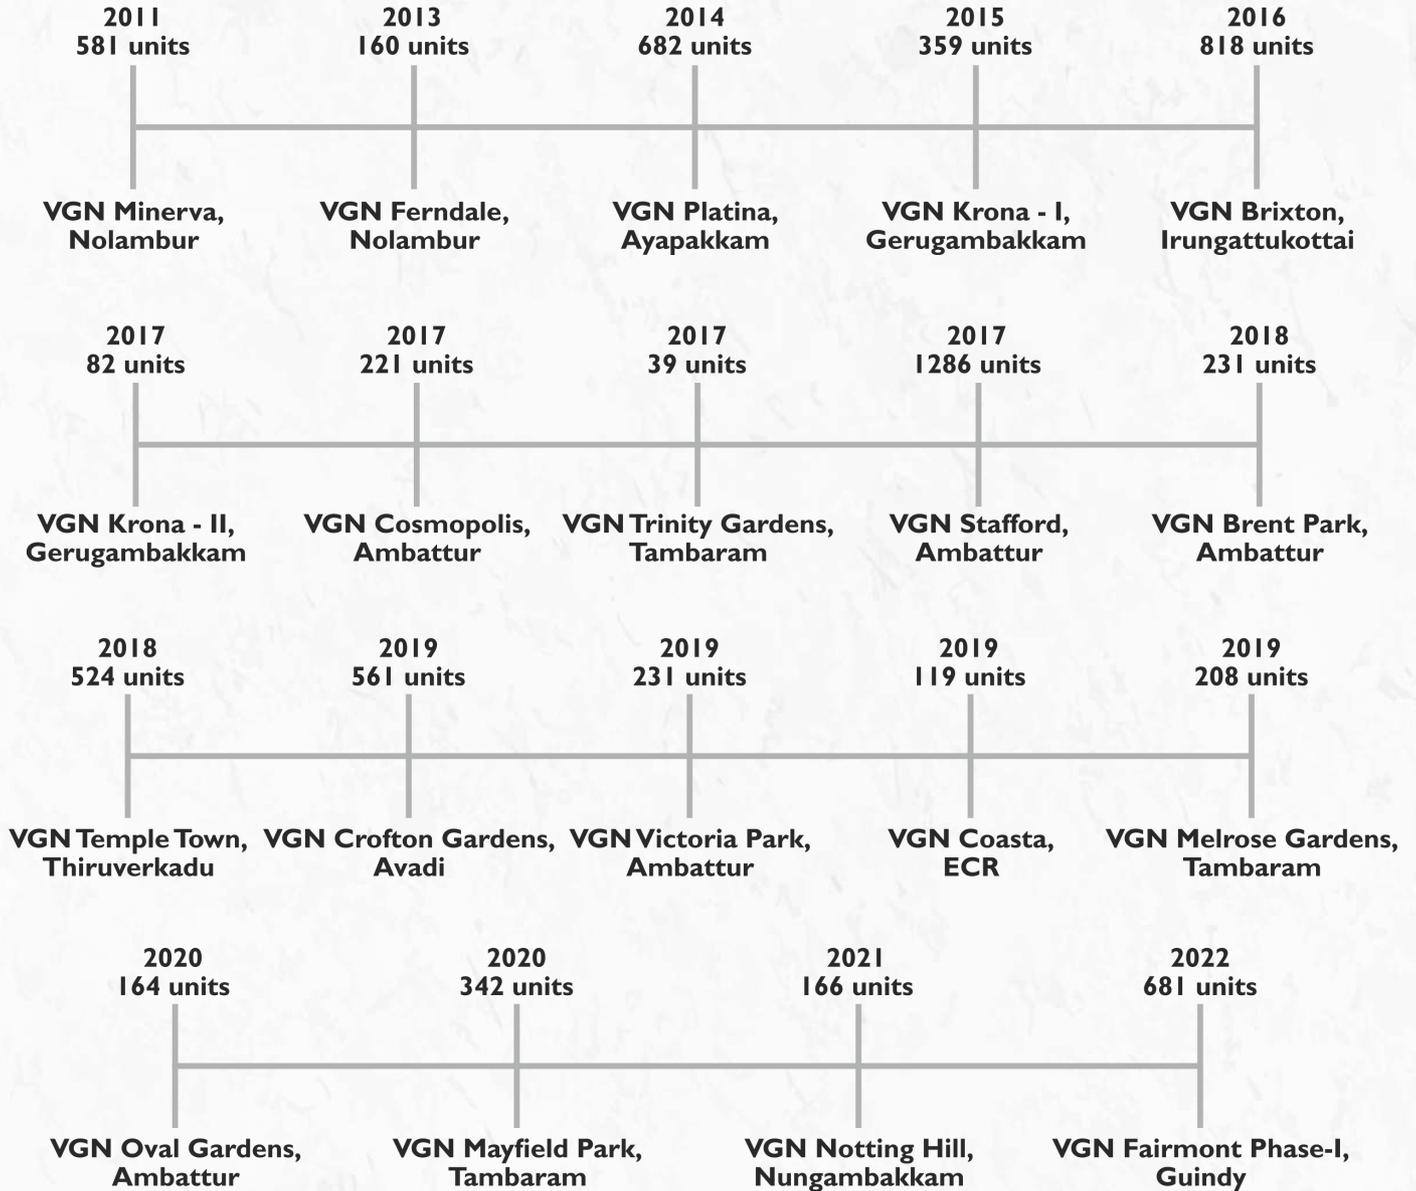

VGN has been recognized and rewarded with hundreds of credible awards and accolades. Has also sponsored Chennai Super Kings in IPL (Indian Premier League) Cricket in 2012-13.

The journey is never over. With the mission to consistently and constantly improve and implement the latest technology in construction engineering, and to provide nothing short of the best for the customers, VGN's journey continues.

On the left side of the road, there is a row of black and white striped posts, likely for road safety or marking. The background is filled with lush green trees and foliage. The overall scene is bright and clear, suggesting a sunny day.

Valued Much More
Than The Land Value.

ValueTo Land Owners :

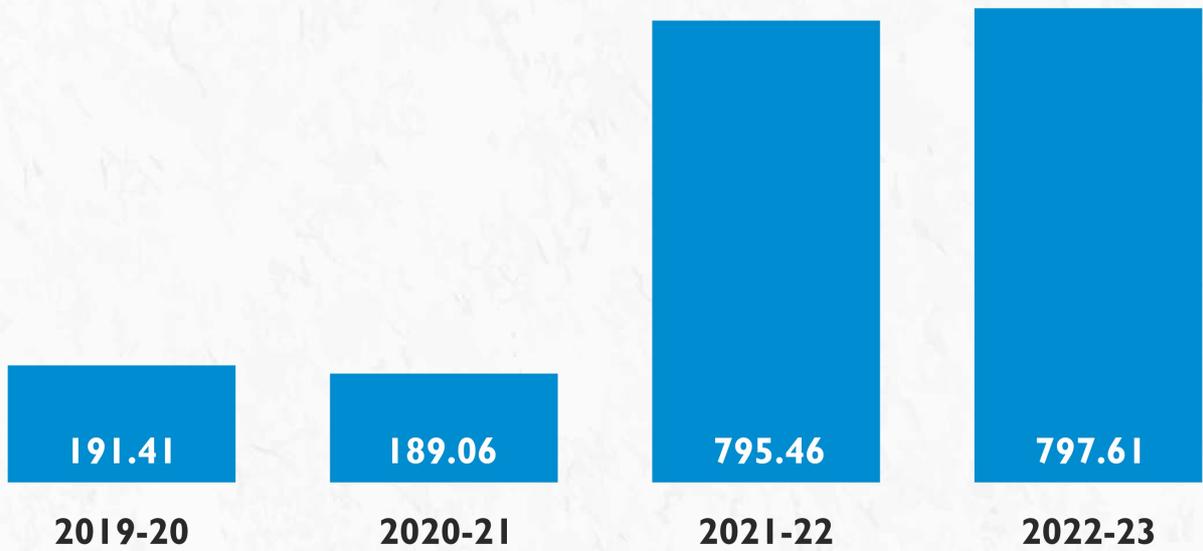

Land value is the worth of a property, which includes both the value of the land itself and any enhancements made to it. VGN believes that the land is precious like a gold mine and therefore offers high returns to landowners on attractive JV (Joint Venture) ratios and better payment terms for their lands, compared to other developers in the real estate market.
